# A Full K-5 Tech Planning Library

120+  
ready-to-use activities

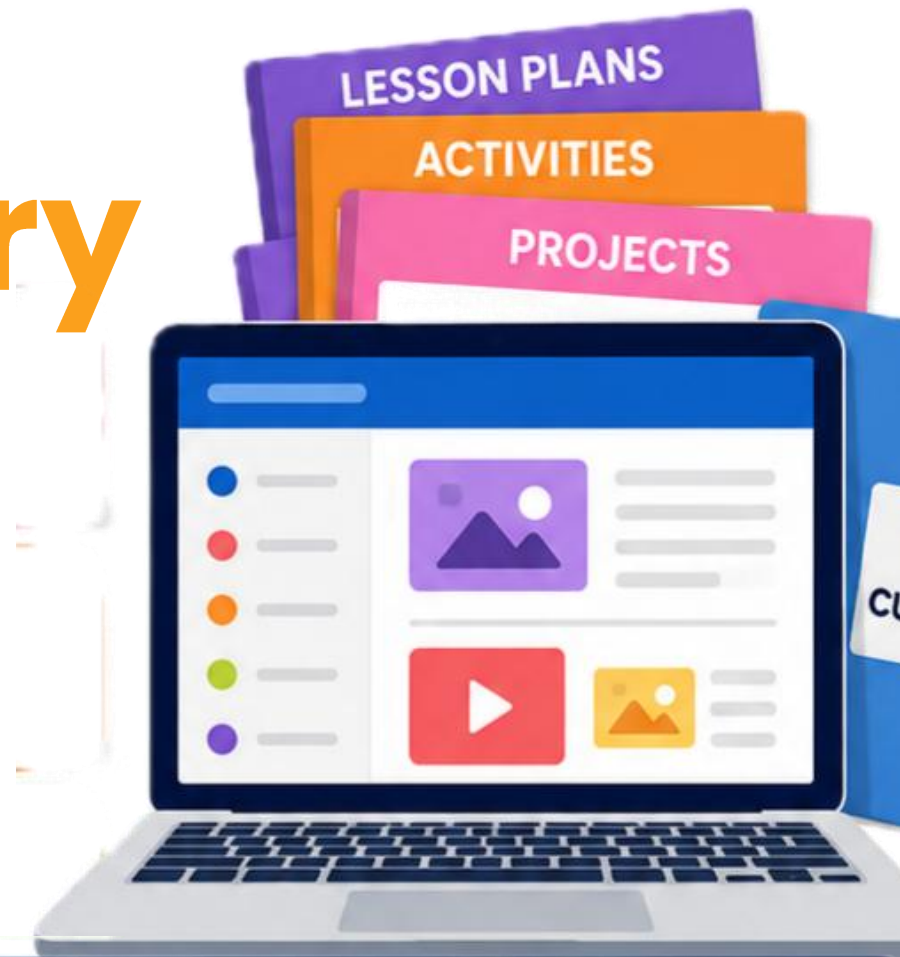

**Full-Year**  
monthly pacing guide

One-time  
purchase

Use year  
after year

**Less than \$5 per activity**

when you divide the bundle price across 120+ activities

# Why Buy the **Full Bundle**?

See the difference between buying one lesson at a time  
and buying the full K-5 bundle.

## Buying One Lesson at a Time

- ✗ Search every week
- ✗ Inconsistent formats
- ✗ Hard to sequence skills
- ✗ Costs add up
- ✗ More planning decisions

## Buying the Full Bundle

- ✓ Start with a pacing guide
- ✓ One organized planning library
- ✓ K-5 skill coverage
- ✓ Save \$216.50 vs. buying separately
- ✓ More done-for-you structure

# TEACHER REVIEWS

❖ I just accepted a position as a Computer Science teacher and started using these activities for summer school and students love them! I plan to use these during regular Computer Science time next year, but every activity has been awesome, and easy to incorporate with students.

❖ -Emily B.

❖ I will be starting a new position as a Computer Resource Teacher and was nervous about switching from Gen Ed to this position. There is SO much to teach when you are teaching all K-6 and SO many things to plan/standards. Finding Brittany and these resources have been AMAZING and such a big relief! I am going into summer feeling ready to relax and not worry (too much) about entering a new position with this thoughtful, thoroughly planned lessons that have already been done.

❖ -Alyssa A.

## K-5 TECHNOLOGY CURRICULUM ACTIVITIES

120+  
Activities

Full-Year  
Pacing Guide

**In this one convenient download, you can...**

- ✓ Have a whole year of planned activities.
- ✓ Use the activities in any order you want with any grade level (differentiation).
- ✓ Save hours of time by creating a consistent routine.
